Welcome Message

Dear Colleagues,

Technology evolution in Oncology Imaging as well as new therapeutic oncology opportunities, along with the importance of early diagnosis and staging of tumors, have created an interaction of these two specialties in daily clinical practice. As a consequence, a new medical era has erupted internationally, "Imaging in Oncology".

Hence, it is with great pleasure to invite you to the 3rd **Imaging in Oncology Congress** which will be held from **December 13th to December 15th, 2013** at "**MITERA Hospital**", in **Athens, Greece**.

Our aim is to distribute knowledge and share experiences on Imaging in Oncology but also to convey science to younger doctors and clinical researchers.

Within the framework of the Congress, lectures as well as roundtables will be held and oral papers will be presented.

On behalf of the Organizing and Scientific Committee of the Congress we welcome you in Athens, Greece and invite you to join us to the 3rd **Imaging in Oncology Congress**, a stimulating meeting offering enjoyable and rewarding interactions in the field of Imaging in Oncology.

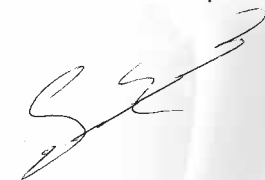

Best regards,
