## **PRESS RELEASE**

### **MITERA Paediatric Clinic: Stands among the 8 Paediatric Cardiosurgical Centres in Europe with certified surgical results**

The Paediatric Cardiosurgical Department in MITERA Paediatric Clinic of HYGEIA Group successfully completed the procedure to have its exceptional surgical results certified by the European Association for Cardiothoracic Surgery.

With this certificate, which is unique to Greece, MITERA Paediatric Clinic is included among the eight large European Paediatric Cardiosurgical Centres having certified surgical results.

The inspectors of the European Association of Cardiothoracic Surgery belauded the modern infrastructure, the perfect set-up, the optimal surgical results of the Director's of Paediatrics Cardiosurgical Clinic, Mr. Sarris's team, and the completeness and accuracy of the submitted data; therefore, the European Association of Cardiothoracic Surgery issued the official Data Verification Certificate.

Launched in April 2008, MITERA Paediatric Cardiosurgical Department has been established by Mr. G. Sarris, Director of Paediatric Cardiosurgical Clinic, Mr. I. Papayiannis, Director of Paediatric Cardiological Clinic, and Mr. G. Kyrvassilis, Director of the Intensive Care Department of Anaesthesiology and Cardiosurgery, and is staffed with experienced medical, nursing and technical personnel.

The successful certification of MITERA Paediatric Cardiosurgical Clinic surgical results is a part of the management's settled commitment and the doctors', technicians' and nurses' dedication to offering high-quality and constantly improved services for children with heart problems.
