In statements she made, HYGEIA Group's CEO, Ms Areti Souvatzoglou noted, "The Greek Paralympic Team once again rose to the challenge, superbly showcasing the messages and values of the Olympic Ideal, while making yet again all Greeks proud. Above all, though, these athletes constitute the best example of what willpower, strength and effort really mean, giving us the best life lesson in these difficult times we are experiencing: the strength of the human soul can overcome all obstacles. For that, we thank them for making us proud."
