## PRESS RELEASE

### LETO: Free hospitalization at MITERA Children's Hospital for all newborns, in partnership with MetLife Alico

LETO Maternity Hospital has announced it will cover all hospitalization expenses at MITERA Children's Hospital for all babies born at LETO, during the first 6 months of their lives, without added insurance premiums. This hospitalization is offered through the "Wonderful Life" program, established by LETO in partnership with insurance company MetLife Alico.

The "Wonderful Life" program also offers unlimited free visits to on-call pediatricians and pediatric surgeons at MITERA Children's Hospital Outpatient Clinic for these first 6 months, as well as visits to physicians of all other specialties at discounted rates.

LETO Maternity Hospital's CEO, obstetrician gynecologist Mr Leonidas Papadopoulos, noted, "We are particularly excited that, as a member of HYGEIA Group, we are able to offer such a significant 'gift of life' to the 5,000 babies born at our Maternity Hospital annually. All parents can now rest assured that, from the moment their children are born, they will receive all the support they need from the most comprehensive private children's hospital in Greece, MITERA Children's Hospital, and will enjoy a wonderful, healthy, happy and safe life! As a doctor, I am well aware of the fact that the first 6 months in the life of a child are the most grueling ones, both for the parents and the child."

On his part, MetLife Alico's CEO, Mr D. Mazarakis, stated, "We are quite satisfied that we are offering valuable insurance cover through the "Wonderful Life" program, in partnership with LETO Maternity Hospital. We are particularly pleased because we are able to guarantee to parents comprehensive medical care for their newborn children, offering them the unique feeling of security that only a well-designed insurance program can offer."

The program is offered free-of-charge for the first 6 months of a child's life, without the parents being required to pay any premiums. When the children enter the second 6 months of their lives, parents have the option to continue the insurance cover, at a special rate.
