The above results indicate that the Restructuring and Development Program of the Group continues with success. Its management continues with the implementation of the strategic plan and remains steadily focused on the reinforcement of the Group activities Group both within and outside Greece, with the goal of creating the largest group of integrated Healthcare services in the region of S.E Europe and the Mediterranean.

It is noted that 2007 has been characterized by the management of the Group as “a year of extroversion and implementation of development’s investment plans”.
