

9 November 2006

PRESS RELEASE

The **World Diabetes Day**, which is celebrated on **14 November**, is the main international campaign that focuses on raising awareness on the fourth highest cause of death in most developed countries –diabetes.

The slogan of this year's campaign is '**Diabetes care for everyone**' and its aim is to draw public attention to communities and groups, in both developed and under-development countries, that are disadvantaged or vulnerable in terms of their access to appropriate diabetes education prevention and care.

The **Athens Diagnostic and Treatment Centre HYGEIA S.A.**, with the opportunity of the celebration of this year's **World Diabetes Day**, shall provide a **FREE DIABETES EXAMINATION** to the members of the **Pan-Hellenic Federation of Individuals with Diabetes** and to **all persons taking part in the educational seminars that are organised by the Centre of Diabetes of the Athens Diagnostic and Treatment Centre at the War Museum.**

The examinations shall be provided **free of charge** with the presentation of the membership card of the Federation / Association.
